

## Egg Yolk

### READY-TO-USE EGGS. NO MESS.

Crystal Lake provides egg yolks in liquid, frozen, or dried, plain or with salt/sugar added forms, and are available in 1 lb. cartons up to 48,000 lb. tankers. These are ready-to-use eggs with no mess from broken shells or waste from unusable eggs. They require less storage space than a comparable quantity of shell eggs, and can be used in all recipes calling for egg yolk, such as those for custard and noodles.

All Crystal Lake products are processed and pasteurized under continuous supervision of USDA's Food Safety Inspection Service. They are also Kosher Certified by Orthodox Union Supervision and produced under a routine quality inspection in accordance with good manufacturing practices.
